About
Some info about the project

This project has been written by Mateusz Kikmunter and Siarhei Staravoitau as a part of NCI Cybersecurity online course.

On the page user can search for country facts.

It can be done either by quick search page or via index.

Project structure is following:

Welcome - landing page
- Quick Search - for rapid data search with dynamically loaded results and links to details page
- Index - countries data in tabular form with links to more detailed info
- About - this page
- Details - dynamically loaded detailed country data (user can go there either from quick search or index)
- Contact - contact form to email the authors
- 5 more pages which are dynamically loaded and contain Mustache JS templates (used to build quick search results and details)

Links and source code:
- Source code on GitHub
- All images are taken from unsplash.com

Technologies used to build the project:

- Bootstrap 4
- Bootswatch
- jQuery
- jQuery Datatables
- REST Countries
- Font Awesome
- Mustache JS
- Google Fonts
- Balsamiq - for wireframes
